## Part B

### CRITERION I – CURRICULAR ASPECTS

#### 1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Every academic department prepares an action plan along with its Vidyasamitee at the completion of the academic year for its execution in the next academic year. The course of action masterminded by every department is submitted to IQAC that consequently prepares the consolidated insightful timetable and showing plan for the college. The draft is finalized in the IQAC meeting at the completion of the academic year for discussion and to combine additional data expecting to be any. The draft is settled and submitted to CDC for money related courses of action, expecting any, in the monetary arrangement. After completion the assembled course of action is flowed to all heads of the workplace for execution. The important details of plan are given publicity in the prospectus, on the website and also through student app and Google classroom. The academic course of action thinks about the dates of terms declared by the college, plans of college evaluations, special events of the college like the rounds of social, sports and Avishkar research competitions. The timetable offers base to the workplace to department level organization and task management. Plans of activities like internal evaluation and dates of undertaking passages are picked halfway by college to avoid clashes. Elsewise the organizing is done on semester basis. Workplaces plan movement of instructive program for progressive review. Understudy interest in this cycle helps with understanding their points of view on the convincing reach of substance movement. Various pieces of arrangement fuse recognizing verification of learning levels of understudies, organizing of restorative, augmentation and additional courses , orchestrating of workshops and gatherings, requesting for reading material, reference books and journals, dates and procedures for teaching and inside appraisal, task of duty ,legitimate field works out, guest addresses, project work, transitory work, departmental events, learning resource actuation including the e-substance, etc The organizing communication is varied for each office as courses and activities change an incredible arrangement. Workplaces like English and Geography make manuals and science workplaces prepare research focus manuals. English, Mathematics, Geography, Computer Science and History workplaces have their online diaries/Facebook pages/destinations/YouTube stations/Google Classrooms where additional substance is stacked with the objective that understudies can get comfortable with any time and at any spot. Field part is basic for departments like Botany, Zoology and Geography. Field visits are orchestrated cautiously considering the local environment. Departments like Commerce and BMS complete field visits. Departments plan their additional courses as per the necessities like capacity improvement, content development, employability redesign and overall ability. Activities with MoU institutes like joint field visits, festivities and talk

plan furthermore find place in instructive program orchestrating. The institute follows 'Teachers' Diary' structure in which every educator cares for diary. As a preparation mid semester overview is taken at departmental level and semester end uncovering of instructive program conveyance is taken at faculty level. Subsequently the establishment's communication of instructive program movement is throughout masterminded and especially detailed and consequently amazingly incredible as reflected in its results.

## 1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?  
(maximum 500 words)

Feedback Obtained
<p>Student Feedback on curriculum, teaching, facilities and support services was obtained class wise in a structured format by a central mechanism. Most of the responses were sought and obtained on a 5 point scale. The structured feedback from teachers on syllabus was obtained in objective as well as descriptive form of responses. Employers' feedback was obtained by the Placement and Career Guidance cell of the college. Alumni Feedback was obtained during their meetings and visits to the college on various occasions. Parents' feedback was obtained during Departmental 'Parent Meets' conducted by the respective departments. Analysis Teacher feedback given by students was analysed on the basis of class, division and subject. This analysis was gauged around areas like punctuality, student centered teaching methods and techniques, use of variety of teaching aids , adherence to the teaching schedules, special efforts for slow and advanced learners, etc. Syllabus related feedback from the students gauged around employability, current contents, need for add on or skill based courses, etc. Averaging was done to arrive at conclusions. Feedback on infrastructure and facilities was also gauged around admission process, library, laboratory and recreation facilities etc. Teachers' Feedback included opinion of teachers on usefulness of the syllabus in terms of employability, scope for research, availability of related books and journals, inter-relatedness of contents across subjects and disciplines, adequacy of number of lectures allotted per unit and so on. Employers' Feedback: Its analysis was gauged around students' employability skills, infrastructural availability in college for conducting campus placement/training programmes, University Syllabus and Company Expectation and so on. Opinions so collected were reviewed and shared with IQAC and HoDs to incorporate the required components in the</p>

respective curricula. Alumni Feedback: It was reviewed by the Vice principals Parents' Feedback collected on syllabus and infrastructure of the college was discussed among department members and conveyed to the Principal during department meeting with the Principal. Utilisation. Student Feedback on teachers after its analysis , was conveyed to the teachers by the vice principals to improve their performance where ever necessary. Syllabus related feedback was reviewed and in case of many departments it was shared with the members of respective BoS during syllabus revision meetings, workshops and so on. Feedback on college infrastructure and facilities was reviewed and necessary steps were taken for the same. Employers' Feedback was considered by the Capability Building units like Placement and Career Guidance Cell while designing programmes like Soft Skill development, training sessions for placement interviews. Alumni Feedback was utilised to enhance their collaboration and cooperation in various activities of the college. Parents Feedback was used by the departments to understand needs of the students and improve their results.

The institute has continued the practice of mentoring the students on various fronts for their overall development. The institute has formulated the structure for mentorship. The students are distributed faculty-wise for convenience. Students also participate in different activities and hence the faculty members and experts of that activity act as mentor for these students. The faculty members act as mentors by setting higher goals before them and prepare them to hit their targets by passing through graded tests. As a result, in last ten years, students of various departments have stood out as university rankers. The coach and supporting staff put strategic efforts and continuous mentoring of the students to nurture the original latent sports potential of the youth. External experts are invited for mentoring and directing the performances in the area of cultural activities in theatre, dance, music, literary events and fine arts. In addition to a professional lady counselor faculty, the two lady vice principals assisted by 50 plus lady staff members take care of the counselling needs of the girl students. The Woman Development Cell organises several programmes for counselling on various aspects and also provides the individual need based counselling and mentoring. The teachers of various academic departments like Marathi, Sanskrit, Chemistry and Geography act as mentors to the individual students or teams participating in various competitions from time to time.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Though CIE is not an integral part of the curricular design of the affiliated university for majority of the courses, the college understands its significance and hence has made it a part of its evaluation mechanism. For a systematic and timely internal evaluation, an internal evaluation week is planned and its dates are declared in the academic calendar of the college at before the commencement of the academic year. Due care was taken this year that it was strictly adhered to. In addition to the written tests during the scheduled Internal Evaluation weeks, as a part of the robust mechanism, departments were encouraged to conduct additional tests in online mode ( Google forms). Activities such as field trips, projects and home assignments were also used as instruments of internal evaluation. For advanced learners, the research activities such as " Shodhvedh " and " Avishkar" were used as means of evaluation. Students writings for inhouse journals, wall papers, annual magazine and their participation and performance in subject related debate, elocution, essay writing, poster making competitions was also considered for their evaluation. In case of the courses at TY and PG level where internal evaluation is a part of the university design, majority of the departments have conducted interviews, viva-voce and power point presentations of the students following the submissions of their projects and home assignments.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

As per the usual practice the college prepared its academic calendar and displayed it on notice boards and on its website. The calendar clearly showed the dates of internal evaluation. IQAC coordinator, Vice principals and members of exam committee work together meticulously to prepare the calendar by taking into account the instructional days and other major timeslots such as long breaks, short breaks, holidays, youth festivals, schedules of university exams and major annual co-curricular and extracurricular activities viz. NSS and NCC camps. The examination committee, in due course, worked on the slots reserved for internal evaluation and prepared and displayed the time-tables well in advance. The departments prepared their own teaching plans in their meetings keeping in mind the schedules of internal evaluation as in the academic calendar of the college as well as the additional tests. The plans were strictly followed and the calendar was adhered to. Only the students who were absent for the tests on valid grounds were allowed to go for evaluation at a later date. Department timetable was prepared by each department, facilitating the teachers to allot sufficient time for the teaching of each course as per the workload allotted by the University. Department also prepared their own academic calendars related to the teaching of theory, practical as well as visits and other departmental activities and discussed in Vidyasamiti and communicated to the IQAC.

#### 4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)

The institute has a systematic mechanism for maintenance different facilities. Some of them are maintained by an Annual Maintenance Contract (AMC) given to concerned agencies, some are maintained by external agencies on demand as per the need and the others are maintained by the faculty members of the institution and skilled staff like plumber, carpenter and electrician appointed by the society. A technical person has been appointed who takes care of regular maintenance of IT infrastructure in the campus. A 'maintenance register' is maintained wherein complaints regarding repairs and maintenance of various facilities in the campus are registered by the staff members which are attended by concerned technical persons on regular basis. Different science departments have number of equipments which need a regular maintenance. Typically the high-end equipments are maintained by the service engineers of the manufacturers on regular basis. The instruments are also calibrated regularly. Such calibration is done regularly or as per the need by the expert faculty members in the respective departments, as below. All the high end instruments are calibrated and maintained as per their respective SOP. The major and sensitive equipments are guarded against voltage fluctuations and power failures. Institute has the common measures such as installing inverters/UPS/ spike guards to take care of the voltage fluctuations and voltage spikes. Also there are two 3-phase central generators (Automech Silent DG set with Eicher make engine) of capacity 45 KVA each, one for each of the two main buildings of the institute. These are used during major power failures or during 'load shading' periods. Thus the sensitive equipments are provided with

additional protection against voltage fluctuations with help of such UPS/ inverters and by installing voltage stabilizers dedicated to such equipments. A special protection has been provided to some sophisticated instruments against humidity, temperature variation and dust by keeping them in AC laboratories. The FTIR, Trinocular microscope, stereo microscope, PCR machine, the 'biosafety cabinets' (laminar air flow), HPLC, ultrasonic homogenizer, fermenter, Elisa reader, gel-doc system and the shaker incubator in department of Biological Sciences are provided with AC cabins.

## **CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT**

### **6.1 – Institutional Vision and Leadership**

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The Institutional administration is participatory and decentralised. According to Maharashtra University Act 2016 the governance of the college is done through the deliberations of College Development Committee-CDC (previously known as Local Managing Committee) comprising of representation of management, teaching staff, administrative staff, community and students. The participative deliberations of this forum takes decisions on important issues like fund distribution, purchase, basic amenities development, etc. The college follows committee system for the decentralization of its day to day functioning. In addition to the bodies like CDC, IQAC, ICC there are 50 other committees at work under broad divisions like Curricular Aspects, Teaching-Learning-Evaluation, Students' Activities, Student Support, Research and Extension, Infrastructure ,Governance, etc. In addition various temporary committees are formed as per the need .The teachers are appointed as the members of these committees by taking into account their interests and abilities. The principle of delegation of authority is followed as it is delegated from the principal to vice principals, the vice principals to the heads of various departments or conveners/ coordinators of various units and finally from the heads to the other members of the department or unit. The responsibility of financial matters of the college is delegated to a separate Finance Officer. Case study : Participative management for asset creation through financial schemes. The UGC has awarded the college the status of 'College with Potential for Excellence' in the XI plan. This scheme has been extended in XII plan. Department of Science and Technology (DST) has awarded financial assistance under a programme FIST. The UGC development grant is also utilised to create assets. The procurement of assets through these financial schemes is one of the best examples of the decentralization and participative management of the college. The Practice: Ever year the college IQAC assess the performance of all the departments. The highly rated departments are identified on the basis of factors such as their faculty profile, examination results, research outcome, community engagement,etc. For creation of assets under CPE, the departments identified as highly rated were Zoology, Physics, Commerce, English, and Geography. A committee of respective Heads of the Departments, IQAC Coordinator, Finance Officer had been formed under the chairmanship of the Principal. The members were asked to study the CPE scheme and prepare a draft proposal. It was finalized after detailed discussions. The same committee had been assigned the task of utilisation of the released grants by inviting quotations, preparation of comparative statements and taking decisions of purchase through deliberations. Within the departments where assets were being created even the junior teachers could suggest certain items and be assertive about the make, vendor, and quality of the items. Similarly, for creation of assets under DST-FIST programme, a Planning Board of Heads of Science Departments had been formed which prepared a proposal and the same Board had been assigned the task of utilisation of released grants. Assets of INR 1.25 crores have been created in this way in last 5 years.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

## 6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	<p>Our college being affiliated to University of Mumbai implements the syllabus designed by the university and seeks regular feedback from students and teachers on the given syllabus. As per the usual practice, in this academic year too, the feedback on curriculum from students and teachers had been sought and analysed. The comments and suggestions received were communicated to the members of BoS. Number of add on courses and skill based courses were designed and implemented to meet the shortcomings of the existing syllabi. On certain BoS, where the faculty of this college act as members, certain need based or advanced modules were introduced during their syllabus revision process.</p>
Teaching and Learning	<p>Following the installation of LED screens in a majority of classrooms and 100 teachers made remarkable use of ICTs in their classroom teaching. LMS like Google Classroom and methods like Blended learning, flipped classrooms were also used. Care was taken to make the teaching -learning process student centred to the extent possible. Many departments, even the ones where it is not prescribed in the curriculum, arranged field visits and internships.</p>
Examination and Evaluation	<p>The College follows the scheme of university examinations. Continuous Internal Evaluation, even beyond the prescribed pattern, has been done in a planned manner with a variety of means. The schedule of internal examinations was made known to students in the beginning of the year through the academic calendar and timely reminders were given from time to time through notifications in offline as well as online mode. Very significant contribution of our college faculty to the university's On-Screen-Marking (OSM) programme was highly appreciated by the Vice Chancellor and Exam Department of the university.</p>
Research and Development	<p>Utilizing the research grants by UGC (CPE) and FIST, Material Research Laboratory and 2 other labs for PG students were developed. Research</p>

activity in Costal Research Station was strengthened by establishing an advanced cell with GIS. Two teachers were awarded Ph.D. The registration process started in recently established Ph.D. centers of Hindi and Commerce Departments of the college. Applications for Ph.D. research centre in the subjects Marathi and Business Economics were submitted to the university.

Library, ICT and Physical Infrastructure / Instrumentation

The college library is fully automated. Books are issued and collected back using Bar-coded system. OPAC catalogue search is available. SWAYAM, INFLIBNET and NLIST are available to access e-journals and digital books. Photo copying and printing services are also provided .

Human Resource Management

As usual, this year too, care was taken that no post of teaching as well as administrative and non-teaching staff is left vacant. Teachers training sessions for staff were organized for orientation of new recruits and updating of existing ones. Faculty members were encouraged to attend conferences, seminars and workshops with full financial and physical facility support by the college. In this academic year faculty members have attended 19 conferences, Orientation Programme, Refresher Course, Short Term Course and Faculty Development Programmes. Recreation programmes such as get-togethers were also organized for teaching, non-teaching and support staff.

Industry Interaction / Collaboration

Gadre Marine Industries Pvt. Ltd. And LIC, Ratnagiri extended their support in the installing of Solar panels. As and when relevant, respective departments organized industrial visits to enhance the students' knowledge and to expose the students to the world of work. 1102 students visited various industries as a part of their filed visits and internship. 46 activities were conducted in collaboration with the participation of 220 students.

Admission of Students

The admission process of the college is always fully transparent and follows the prescribed rules and norms of the government and the affiliated university. Admission committee with faculty as its members assist in

guiding the candidates and their parents during the admission especially in matters like choice of optional courses and fee concessions. Needy students are offered the facility to pay their fees in instalments. Bank loans are also availed. The College website and prospectus also give details of eligibility norms for admission. It is given to the applicants along with the application form.

## 7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

1. CAP-OSM Gogate Jogalekar College being a lead college of University of Mumbai for the districts of Ratnagiri and Sindhudurga takes different leads and initiatives as per requirements. This year the organization of Central Assessment Program for On Screen Marking (CAP-OSM) may be regarded as one of such best practices. The practice of OSM was initiated by the university in 2017 and it was facing different problems and issues owing to the limitations and inadequacies of infrastructure facilities and training at the 41 colleges in these two districts. Therefore it was decided to organize regular workshops for the principals and IT coordinators of all the colleges in the jurisdiction to keep them updated about the ever evolving online marking system. Accordingly six workshops were organized on the following dates: 09-05-18, 12-05-18, 29-09-18, 23-10-18, 08-03-19, 02-04-19. The resource persons for such programs included Dr. Suhas Pednekar (Hon. VC), Dr. Arjun Ghatule (Director, Board of Exam and Evaluation), Dr. Narendra Tendulkar (Co-Ordinator, Mumbai University Sub centre), Santosh Sonawane (Deputy Register, Mumbai University) and Dr. Kishor Sukhtankar (Principal). These workshops thoroughly trained 60 Principals and delegates and, in turn, all the assessors of the two districts regarding various procedures to be completed before, during and after the semester end university examinations. In addition to the efficient conduct of the above workshops the college also provided its advanced infrastructure of well-equipped computer laboratories with necessary software and facilities like CCTV as well as technical support staff from the IT and Computer science department of the college. Principal Dr. Sukhtankar shouldered the responsibility as the director of central as well as CAP-OSM Centre. The last and best part of the practice was the number of papers assessed by the teaching staff of this college. While the expected number of papers to be assessed and moderated by the staff of this college was 21600, the staff assessed and moderated 32120 papers, 48 more than the targeted figure. This practice enhanced the overall speed of assessment at the university level and resulted into the declaration of results well in time, though online marking system was newly introduced and volume of work was magnanimous. This contribution of the college was highly appreciated by the university authorities in writing. (letter) 2. On the job training and CPBFI Job Fair 2018 : Carrier Guidance and Placement Cell of the college functions vibrantly and proactively for developing employability and availing employment opportunities under various sectors. Among the various programs and activities of the Cell, CPBFI (Certificated Program Banking

Finance and Insurance) was a landmark event of the practice. In all 10 campus drives, 5 carrier guidance programs and 3 skill development programs were organized by the Cell. Total 432 students participated in the campus drive programs, 1148 students participated in carrier guidance program and 127 students completed the skill development programs. Certificated Program Banking Finance and Insurance was organized in association with Bajaj Finserve Ltd., Pune with whom the college has an MoU. In this program 17 different recruiters from banking, finance and insurance sectors participated in addition to the local employers. Under CPBFI Job Fair, Bajaj Finserve Ltd. organized 3 campus drives on 14-10-2018, 03-11-2018 and 16-12-2018 respectively and 204 students appeared for the interviews, of these 109 candidates were short listed and 51 were served with job offer letters. Thus this practice straightened the industry- college relationship, increase industry- students interaction and availed job to the students trained and motivated by the Career Guidance and Placement Cell. Besides the job fair 650 students of Commerce faculty completed on the job training and internship of 120 hrs. in summer vacation.

### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

One of the areas of the distinctiveness of the institution is its functional MoUs with various academic and industrial organizations. In the academic year 2018-19 the college has its MoUs with 12 institutes. Various departments of all the three faculties organized or participated in various activities with these institutions. Most of these activities were planned in the meeting of all the coordinators and Principals of MoU colleges held on 07-09-2018. Accordingly, 46 students and teachers of this college participated under the faculty exchange program by Parvatibai Choughule College, Goa and S.C. College, Goa. 216 students had field visits with Government College of Sanquelim(Goa), Indian Council Of Agricultural Research(ICAR), Goa and Parvatibai Choughule College, Goa and 350 students participated in the job fair organized in collaboration with Bajaj Finserve Ltd. , Pune. Other MoU activities include conferences, workshops, management meet, seminar and internship. The faculty of this college also acted as resource persons of seminar and members on Boards of Studies of autonomous colleges like Parvatibai Choughule College of Arts and Science, Goa. The major departments that had advantage of these MoU activities are Physics, Zoology, Microbiology, Biochemistry, Computer Science, Commerce, Marathi, Geography and Rural Development. These activities were a part of the initiatives taken to achieve the major objectives of the institution such as to encourage and facilitate research and extension activities related to regional issues and to organize a variety of exposure activities through various agencies and platforms to provide opportunities for identification of individual talents, interests talents and inclinations of the students of diverse kind. For example, the students of T.Y.B.Sc. Biochemistry had great opportunity to interact with scientists and research scholars of ICAR, Goa during their visit to the institution. Also carrier counseling of the visiting students was done by the eminent scholars of ICAR. Similarly, M.Sc. Microbiology students completed internship at renowned national institutes like Bioera, Pune, and National Facility for Biopharmaceuticals and National Institute of Oceanography. Innovative programs like Geographize were organized by Parvatibai Choughule College, Goa in which our students could participate and prove their talents. The Certificate Program in Banking, Finance and Insurance was organized in collaboration with Bajaj Finserve Ltd. , Pune in

which 90 students of the college participated. Similarly in the Job Fair organized by the same institute 350 students were registered and 100 were short listed for various jobs. On the other hand students and teachers from some of these colleges participated in the activities organized by departments like Marathi of this college. Thus all these MoU activities proved very relevant as far as the distinctiveness of this institution is concerned.
