

Course Outcomes: UG (BA in psychology)

F.Y.B.A. Psychology

Nomenclature of the Course	Fundamentals of Psychology Part I
Class	FYBA
Semester	I
Course Code	UAPSY101
No. of Credits	02
Nature	Theory
Type	Major (Mandatory) / Minor

Course Outcomes: After successful completion of the course, the learner shall be able to:

- CO1: To impart knowledge of the basic concepts and modern trends in Psychology.
- CO2: To foster interest in the subject of Psychology and create a foundation for further Studies in Psychology.
- CO3: To Understand psychological career options.
- CO4: To Develop a biological perspective for understanding psychological functioning in students.

Nomenclature of the Course	Basic Counseling Skills
Class	FYBA
Semester	I
Course Code	UAVSCPSY101
No. of Credits	02
Nature	Theory + Practical
Type	VSC

Course Outcomes: After successful completion of the course, the learner shall be able to:

- CO1: Understand of importance of counselling.
- CO2: Understand basic concepts of counselling.
- CO3: Understand basic counselling skill.

Nomenclature of the Course	Fundamentals of Psychology Part II
Class	FYBA
Semester	II
Course Code	UAPSY 201
No. of Credits	02
Nature	Theory
Type	Major (Mandatory) / Minor

Course Outcomes: After successful completion of the course, the learner shall be able to:

- CO1: Identify the elements and characteristics of learning
- CO2: Describe different perspectives of learning.
- CO3: Differentiate between types of memory.

S.Y.B.A. Psychology

Nomenclature of the Course	Social Psychology Part I
Class	SYBA
Semester	III
Course Code	UAPSY 301
No. of Credits	004
Nature	Theory
Type	Major (Mandatory) / Minor

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO 1: To help students in building knowledge of the basic concepts and modern trends in Social Psychology

CO 2: To foster interest in Social Psychology as a field of study and research among Students.

Nomenclature of the Course	Social Psychology Part : II
Class	SYBA
Semester	IV
Course Code	UAPSY401
No. of Credits	04
Nature	Theory
Type	Major (Mandatory) / Minor

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO 1: To help students in building knowledge of the basic concepts and modern trends in Social Psychology

CO 2: To foster interest in Social Psychology as a field of study and research among students.

CO 3: To make the students aware of the applications of the various concepts in Social Psychology in the Indian context.

Nomenclature of the Course	Developmental Psychology Part I
Class	SYBA
Semester	III
Course Code	UAPSY302
No. of Credits	02
Nature	Theory
Type	Major (Mandatory) / Minor

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO 1: To help students in building knowledge and understanding of the basic concepts, principles, perspectives, and modern trends in Developmental Psychology

CO 2: To foster interest in Developmental Psychology as a field of study and research among students.

CO 3: To make the students aware of the implications and applications of the various concepts, principles and theories of Developmental Psychology in daily life in the Indian context

Nomenclature of the Course	Developmental Psychology Part II
Class	SYBA
Semester	IV
Course Code	UAPSY402
No. of Credits	02
Nature	Theory
Type	Major (Mandatory) / Minor

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO 1: To help students in building knowledge and understanding of the basic concepts, principles, perspectives.

CO 2: To foster interest in Developmental Psychology as a field of study and research among students.

Nomenclature of the Course	Field project (FP)
Class	SYBA
Semester	III
Course Code	UAFPPSY301
No. of Credits	02
Nature	Practical
Type	Field Project (FP)

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO 1: Enhance interpersonal skills by working in teams.

CO 2: Improve written and verbal communication by preparing reports, presentations, and discussions on project findings.

CO 3: Develop critical thinking through observations.

CO 4: Apply theoretical concepts learned in the classroom to real-world situations in their respective fields.

Nomenclature of the Course	Community Engagement Programme (CEP)
Class	SYBA
Semester	IV
Course Code	UACEPPSY401
No. of Credits	02
Nature	Practical
Type	Community Engagement Programme (CEP)

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO1: Student shall be sensitized about the application of their knowledge for the society.

CO2: Students shall acquire new or upgrade existing skill.

T.Y.B.A Psychology

Nomenclature of the Course	Abnormal Psychology Part I
Class	TYBA
Semester	V
Course Code	UAPSY501
No. of Credits	04
Nature	Theory
Type	Major (Mandatory)

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO 1: The learner will be able to:

1. Develop an understanding of the basic concepts and theories of Abnormal Psychology.
2. develop insight into various forms of Psychological Disorders – their symptoms, causes, along with the process of diagnosis and treatment
3. become more sensitised and equipped to deal with various issues related to Mental Health in Society

CO 2: The learner will build foundational knowledge of Abnormal Psychology which will help the learner for higher education and also pursue a professional career in Clinical Psychology.

Nomenclature of the Course	Abnormal Psychology Part II
Class	TYBA
Semester	VI
Course Code	UAPSY601
No. of Credits	04
Nature	Theory
Type	Major (Mandatory)

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO 1: The learner will:

1. develop an understanding of the basic concepts and theories of Abnormal Psychology.
2. develop insight into various forms of Psychological Disorders – their symptoms, causes, along with the process of diagnosis and treatment
3. become more sensitized and equipped to deal with various issues related to Mental Health in Society

CO 2: The learner will build foundational knowledge of Abnormal Psychology which will help the learner for higher education and also pursue a professional career in Clinical Psychology.

Nomenclature of the Course	Industrial – Organizational Psychology Part I
Class	TYBA
Semester	V
Course Code	UAPSY502
No. of Credits	04
Nature	Theory
Type	Major (Mandatory)

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO 1: Learners will be able to

- a) describe the scope of I/O Psychology and careers related to I/O Psychology.
- b) list and describe the basic concepts of I/O Psychology.
- c) critically discuss issues related to I/O Psychology.

CO 2: Learners will have built a sufficient foundation in I/O Psychology to pursue post-graduate studies and/or careers related to I/O Psychology.

Nomenclature of the Course	Industrial – Organizational Psychology Part II
Class	TYBA
Semester	VI
Course Code	UAPSY602
No. of Credits	04
Nature	Theory
Type	Major (Mandatory)

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO 1: Learners will be able to

- a) describe the scope of I/O Psychology and careers related to I/O Psychology.
- b) list and describe the basic concepts of I/O Psychology.
- c) critically discuss issues related to I/O Psychology.

CO 2: Learners will have built a sufficient foundation in I/O Psychology to pursue postgraduate studies and/or careers related to I/O Psychology.

Nomenclature of the Course	Psychological Testing Psychology Part I
Class	TYBA
Semester	V
Course Code	UAPSY503
No. of Credits	04
Nature	Theory
Type	Major (Mandatory)

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO 1: The learner will develop knowledge and understanding of the nature, uses, technical features, and the process of construction of psychological tests.

CO 2: The learner will develop awareness about the measurement of intelligence and assessment of personality.

CO 3: The learner will develop to be equipped with knowledge about the concepts in Statistics and the various measures of Descriptive Statistics - their characteristics, uses, applications, and methods of calculation.

Nomenclature of the Course	Psychological Testing Psychology Part II
Class	TYBA
Semester	VI
Course Code	UAPSY603
No. of Credits	04
Nature	Theory
Type	Major (Mandatory)

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO 1: The learner will develop knowledge and understanding of nature, uses, technical features, and the process of construction of psychological tests.

CO 2: The learner will develop awareness about measurement of intelligence and assessment of personality

CO 3: The learner will be equipped with the knowledge about the concepts in Statistics and the various measures of Descriptive Statistics - their characteristics, uses, applications and methods of calculation.

CO 4: The learner will build a firm foundation, which will be helpful for advanced learning of Psychological Testing, Assessment and Statistics in postgraduate studies.

Nomenclature of the Course	Psychological Tests
Class	TYBA
Semester	V
Course Code	UAPSY504
No. of Credits	04
Nature	Practical
Type	Major (Mandatory)

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO1: Describe mapping of human behaviour.

CO2: Explain general ability testing, personality, adjustment and attitude.

CO3: Identify and classify the intellectual ability and personality patterns.

CO4: Conduct testing and evaluate intellectual ability, personality traits, adjustment and attitudes of participant.

Nomenclature of the Course	Psychological Experiments
Class	TYBA
Semester	VI
Course Code	UAPSY604
No. of Credits	02
Nature	Practical
Type	Major (Mandatory)

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO1: Explain psychophysics, various cognitive processes of human being.

CO2: Classify and compare psychological experiments.

CO3: Conduct laboratory experiments.

CO4: Analyse statistical base of human behavior.

Nomenclature of the Course	Counseling Psychology Part I
Class	TYBA
Semester	V
Course Code	UAPSY505
No. of Credits	04
Nature	Theory
Type	Major Elective

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO1: The learner will develop knowledge and understanding of the nature, process, goals, techniques, ethical issues and major theories in Counseling Psychology

CO2: The learner will develop interest in the various applications and fields of counseling

CO3: The learner will develop a foundation for higher education in Counseling and a career as a professional counsellor.

Nomenclature of the Course	Counseling Psychology Part II
Class	TYBA
Semester	VI
Course Code	UAPSY605
No. of Credits	04
Nature	Theory
Type	Major Elective

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO1: The learner will develop knowledge and understanding of the nature, process, goals, techniques, ethical issues and major theories in Counseling Psychology

CO2: The learner will develop interest in the various applications and fields of counseling

CO3: The learner will develop a foundation for higher education in Counseling and a career as a professional counselor

Nomenclature of the Course	Cognitive Psychology Part I
Class	TYBA
Semester	V
Course Code	UAPSY506
No. of Credits	04
Nature	Theory
Type	Major Elective

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO1: The learner will develop knowledge and understanding of the fundamental concepts of Cognitive Psychology and the basic Cognitive processes

CO2: The learner will develop awareness about the various applications of Cognitive processes in everyday life and a foundation to enable understanding of their applications in other fields - Social, Educational, Industrial, Abnormal, Counseling, Sports, Health, Education, and Neuro-Psychology

CO3: The learner will develop a foundation for higher education and a career in the field of Cognitive Psychology.

Nomenclature of the Course	Cognitive Psychology Part II
Class	TYBA
Semester	VI
Course Code	UAPSY606
No. of Credits	04
Nature	Theory
Type	Major Elective

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO1: The learner will develop knowledge and understanding of the fundamental concepts of Cognitive Psychology and the basic Cognitive processes

CO2: The learner will develop awareness about the various applications of Cognitive processes in everyday life and a foundation to enable understanding of their applications in other fields - Social, Educational, Industrial, Abnormal, Counseling, Sports, Health, Education, and Neuro-Psychology

CO3: The learner will develop a foundation for higher education and a career in the field of Cognitive Psychology

Nomenclature of the Course	Community Engagement Programme (CEP)
Class	TYBA
Semester	V
Course Code	UACEPPSY507
No. of Credits	02
Nature	Practical
Type	Community Engagement Programme (CEP)

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO1: Student shall be sensitized about the application of their knowledge for the society.

CO2: Students shall acquire new or upgrade existing skill.

Nomenclature of the Course	On job training
Class	TYBA
Semester	V
Course Code	UAOJTPSY507
No. of Credits	04
Nature	Practical
Type	On job training

Course Outcomes: After successful completion of the course, the learner shall be able to:

CO1: Students shall gain hands-on skills related to their subject to increase their employability.
